

## Libya based Civil Engineer at Voluntas Advisory

### About Voluntās (Latin: will, goal, purpose, meaning)

Voluntas Advisory is a management consultancy firm within Voluntas Group, which is driven by creating business strategies with a purpose and developing policies for a sustainable impact. Our purpose is to bring a fundamental change to the way we lead and realize human potential. By working in the intersection between state and business, the interplay between society and market, and the synergy between citizen and consumer, we...

- ... deliver intelligence-based and innovative policy-making
- ... create purposeful business and branding strategies,
- ... produce enlightening market research and impactful analyses

Voluntas Advisory's clients include multinational corporations, governments, our portfolio companies and international organizations

### Civil engineer to be based in Libya

We are looking for a Civil Engineer to join us and be based in Tripoli, Libya. Voluntas is working for an international client implementing civil work projects in Libya through local contractors. Your role will be to lead a third-party monitoring of the civil works including surveillance, assessing requests for variation orders and advising the client on the merits of the cases and reviewing the quality of completed works and advising the client on their acceptability for payment. The position will involve secure travel in Libya.

In your position you will be supported by colleagues in our Tunis and Copenhagen office.

#### Profile

- At least 5 years of experience in construction project management and contracts management
- Experience in design and preparation of cost estimates for civil structures & rehabilitation works.
- Knowledge of international standards for civil works related to buildings.
- Construction supervision experience of buildings, utility services, schools, roads, etc.
- Experience in supervising rehabilitation works & managing projects.
- Written & oral communication skill in English & Arabic languages.

#### Main Responsibilities

- Review and certify Contractor's progress payment requests including the final payment and accompanying support backup data and schedules.
- Verify amounts due to the Contractor based on the on-site observations and Contract requirements
- Inspect works and installations to ensure compliance with documents and drawings
- Review and certify the request for final payment submitted by the contractor at the completion of construction under contract
- Make recommendations to client regarding costs for works not specified in the contract documents
- Observe tests and notify client and the contractor in writing of acceptance or rejection of materials or equipment tested

### How to apply

Interested candidates should email a resume and cover letter. Applications should be sent in English to [jobs@voluntasadvisory.com](mailto:jobs@voluntasadvisory.com). **Candidates will be assessed on a rolling basis.** Selected candidates will be invited for interviews to discuss their interests and experience and to test their problem-solving skills through case studies. The position is planned to start in February 2019.

For any inquiries feel free to contact Head of Policy, Alexander Kjaerum (+45 20767746, [ahk@voluntasadvisory.com](mailto:ahk@voluntasadvisory.com))
